

EVA KOSS

Frontend React Developer

With 6 years of diverse development experience (1.5 years of specialized frontend experience crafting dynamic websites) and a degree in Computer Science, I have a strong programming foundation and the versatility to adapt quickly to new tools and challenges. My passion is creating robust, visually appealing, and impactful web applications that align with both user needs and business goals.

I'm excited to bring my skills and enthusiasm as a Frontend React Developer to your team and contribute to your product's success!

Russian - native

Latest experience

Frontend React Developer March 2024 - Present
Freelance

- Develop and implement responsive, user-friendly interfaces using HTML, CSS, and JavaScript (ES6+), ensuring compatibility across devices and browsers.
- Build scalable React applications, implementing reusable components and state management solutions.
- Collaborate with clients to gather requirements, propose technical solutions, and deliver projects on time, maintaining clear and consistent communication.

Technology stack: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript (ES6+), React, Next.js, Node.js, npm/pnpm, Webpack, Babel, Figma, Git/GitHub/GitLab

React Developer Aug 2024 - Oct 2024
Y_LAB · Internship

- Develop a fully functional e-commerce prototype with features including product listing, pagination, category filtering, shopping cart functionality, and product detail views.
- Implement functionality and user interfaces using modern ES6+ JavaScript syntax, JSX, and a minimalist design approach.
- Configure React applications for commercial development, leveraging Webpack and Babel for optimal build and deployment setups.
- Follow BEM methodology for consistent and scalable class naming, ensuring maintainable code.

Key Achievements: Independently built and configured a React application prototype from scratch, integrating modern development tools and best practices. Successfully implemented server error handling, improving the user experience and application stability.

Technology stack: HTML, CSS, JavaScript (ES6+), React, Redux, React Router, Node.js, Webpack, Babel, ES6+, JSX, BEM, Git, npm, Figma, Git/GitHub

Frontend Developer Jul 2023 - Feb 2024
Open Source Projects · Freelance

- Build responsive and visually appealing web components using pure HTML, CSS, and modern JavaScript (ES6+).
- Utilize advanced layout techniques like CSS Grid, Flexbox, and Bootstrap for efficient and scalable designs.
- Develop dynamic and interactive web applications through DOM manipulation and robust event handling.
- Design animations and transitions to enhance user engagement and experience.

Key Achievements: Delivered 170+ website components and interactive features inspired by major tech platforms (Apple, Uber, Facebook, etc.). Actively contributed to creating fully functional projects.

Technology stack: HTML, CSS, Bootstrap, JavaScript (ES6+), Figma, Git/GitHub
